We are applying for our short-Term Rental Accomodation Permit for our existing vacation rental property in Naramata, B.C., operating seasonally from May through October.

The property will continue to be offered as a short-term vacation rental, providing accomodation for visitors to the Naramata area while also contributing economically to the area. The maximum occupancy will remain at 8 guests, including children.

There have been no changes, renovations, additions, or alterations to the property since our previous permit application. The property will continue to operate under the same conditions, and intended use as previously approved.

We remain committed to maintaining the property in a safe, clean, and well-managed condition while ensuring that rental activities are respectful of neighbouring properties and surrounding community.

Thank you.
