

Network Systems Administrator

Information Services

(Regular, Full-Time)

Located in the south-central region of B.C., the Regional District of Okanagan-Similkameen covers an area over 10,400 km² and is renowned for its orchards, vineyards and golf courses, as well as its widely varied landscape including deserts, mountains and valleys, and pristine lakes. Outdoor recreational opportunities are endless throughout the Regional District and residents enjoy a wide array of activities all year long.

The RDOS is seeking a self-motivated professional to join the Information Services' team in this newly created Network Systems Administrator position. The incumbent will plan, develop, maintain and enhance the Information Technology infrastructure and maximize the potential of information technologies to support internal and external business processes.

The RDOS maintains a large regional network that is comprised of multiple services over a large geographic area. The Regional District is in the process of modernizing its infrastructure with the latest technologies such as SD-WAN, SDN, Hybrid-Cloud, and many more. With the creation of a Regional Data Center we will be able to offer more services at higher efficiency. This is an exciting opportunity to be a part of as we move the Okanagan Similkameen into a new technological era.
