

ELECTORAL AREA “D” GOVERNANCE STUDY COMMITTEE INFORMATION RELEASE

October 14, 2015

The Electoral Area “D” Governance Study Committee met with Leftside Partners, the consultants who the committee has retained to conduct the Electoral Area “D” Governance Study.

In an effort to understand the diversity of the Electoral Area and the varying needs in each part of the Electoral Area, the consultants joined various committee members in touring the Electoral Area on September 21 and 22, 2015. Tour sites included Upper Carmi, Heritage Hills/Lakeshore Highlands, Skaha Estates, Okanagan Falls, Kaleden, Vaseux Lake, Twin Lakes/St. Andrews and Apex Mountain.

The committee and consultants look forward to engaging with citizens regarding the governance study in the coming months. Fact Sheets detailing each service provided by the Regional District are being created and will be distributed widely. Governance Forums will be held in the various areas, and surveys will be provided in central locations and on the webpage. Information and updates on the study will be posted to local neighbourhood bulletin boards.

Citizen input is critical to this process and it is hoped that people will come out to the various forums and meetings, write or email to the contacts provided in the coming weeks and have their say!

The committee would like to emphasize to citizens that all committee meetings are open to the public. Meetings details can be found at www.rdos.bc.ca, go to popular links an Area “D” Governance Study or call the contact below for more information.
