

PROPOSED TEMPORARY USE

RE: Park Model located on 8026 Highway 97, Oliver B.C. Attachment to TUP

To Whom it May Concern

This application is made in order to provide a safe and happy home for my 90-year-old father to live in. he previously lived in Kelowna, with me driving up 4 times a week to do his grocery shopping etcetera. After a few emergency room visits, it was advised that he should have some home care, which he refused. Going to an institution was not an option, due to Covid 19 restrictions, and the fact that he is still mostly self-sufficient. He only requires to be reminded of things, and need help with cleaning, groceries etc., especially in this new Covid world. He can get quite confused with the way things are now. It's important to note that he grew up on a farm, and is very comfortable and happy here. He also wintered in a similar Park Model for 30 years with my mom, so it is familiar to him in his times of confusion.

My Fathers move to our property allowed for him to have a family Doctor, as mine took him on as a patient. He has struggled getting medical care for many years in Kelowna. He can now get the care he needs. Not going into a home, as we can provide for him has also allowed that spot to be filled by another, who may need it more.

This park Model was found on-line, and we moved it onto our property thinking it was allowed as it falls within the parameters set by the ALC. We have no desire to circumvent the rules.

This residence will certainly be temporary, as once my dad passes, it will be sold off as part of his estate, as my brother is part beneficiary. Sadly, we don't expect it to be even occupied for 3 years; my dad has already out lived all but one of 10 family members, and that one passed at 92. I am in the progress of involving interior health in his life now, so that we are ready when the time comes. once my dad forgets who I am, or requires help with bathing etc., I will have to relinquish mt care of him, as it is beyond my ability.

I respectfully beg you to allow me this time with my father, and more so, his time with me, for it will not be lengthy or sadly, permanent.
