

## ADMINISTRATIVE REPORT

**TO:** Board of Directors  
**FROM:** B. Newell, Chief Administrative Officer  
**DATE:** April 7, 2022  
**RE:** Official Community Plan (OCP) Amendment – Electoral Area “D” (D2021.022-ZONE)

---

### Administrative Recommendation:

**THAT Bylaw No. 2603.23, 2022, a bylaw to amend the Electoral Area “D” Official Community Plan to clarify the types of activities which require the issuance of a Multiple Family or Industrial Development Permit be read a third time and adopted.**

---

### Background:

Under Section 488 of the *Local Government Act*, the Regional District may designate a development permit area in order to address such things as the protection of the natural environment, the form and character of industrial buildings or the protection of development from hazardous conditions.

In designating such areas, the Act further requires that the Regional District establish the types of activities required to obtain a permit before commencement. This generally involves either the subdivision of land, construction of buildings or alteration of land.

**March 6, 2014** - the Regional District adopted the Electoral Area “D” OCP Bylaw No. 2603, 2013, which included six different development permit area designations. A seventh development permit area was added in 2018 when the Okanagan Falls Town Centre Development Permit Area was adopted. Two of these, being the Industrial and Multiple Family Development Permit (DP) areas, do not clearly establish what forms of activities require a permit and which are exempt.

Both of these development permit areas have been designated under Section 488(1)(f) of the Act, which relates to the “establishment of objectives for the form and character of commercial, industrial or multi-family residential development.” The Industrial DP Area has further been designated under Section 488(1)(a) in order to protect the natural environment (e.g. Aquifer Protection Area).

### RDOS Board Consideration and Public Engagement

**February 8, 2022** - a Public Information Meeting (PIM) to identify triggers for the multiple family and industrial developments was held online via Webex and was attended by 1 member of the public.

**February 8, 2022** - the Electoral Area “D” Advisory Planning Commission recommended that the OCP amendment to identify triggers be approved.

The written notification of the public meetings as well as formal referral to the agencies listed at Attachment No. 1, should be considered appropriate consultation for the purpose of Section 475 of the *Local Government Act*. As such, the consultation process undertaken is seen to be sufficiently early and does not need to further ongoing.

---

---

**March 17, 2022** - the Regional District Board approved first and second reading of the amendment bylaw and scheduled a public hearing ahead of its meeting of April 7, 2022. Any comments received in relation to this application are included with this report.

Approval from the Ministry of Transportation and Infrastructure (MoTI) is not required prior to adoption as the proposed amendments relate to Official Community Plan (OCP) Bylaws.

**Analysis:**

Notice of a pending subdivision of the former Weyerhaeuser site in the Okanagan Falls industrial area has been received and the Industrial DP Area that applies to these lands is not clear on what development “triggers” the need for a permit; and, if a DP is required prior to final approval of the subdivision.

A review of the other development permit area designations within the OCP Bylaw revealed the same issue with the Multiple Family Development Permit Area.

Generally, a “form and character” DP is only triggered at the building permit stage as such DPs are primarily concerned with the aesthetic, or built form (i.e. appearance) of a structure. Landscaping can also be a secondary consideration.

Given both the Industrial and Multiple Family DP Areas have been designated in order to establish “form and character” objectives the construction of, addition to or alteration of a building or other structure” should be established as a “trigger”.

The Industrial DP Area was also designated to protect the aquifer which provides drinking water to the community and an additional trigger should be applied, this being:

*any development with contamination potential that involves new or existing uses for any of the purposes or activities listed in Schedule 2 of the Contaminated Sites Regulation, (B.C. Reg. 375/96).*

For reference purposes, a copy of Schedule 2 of the Contaminated Sites Regulation is included in Attachment No. 1. This requirement will capture a majority of activities with the potential to affect the local aquifer.

**Alternatives:**

1. THAT first and second readings of Bylaw No. 2603.23, 2022, Electoral Area “D” Official Community Plan Amendment Bylaw be rescinded and the bylaws abandoned.

**Respectfully submitted:**

Shannon Duong, Planner I

**Endorsed By:**

C. Garrish, Planning Manager
