**RE: Temporary Use Permit Application for 3575 3<sup>rd</sup> Street, Naramata**

**Current Use:**

Currently, the home and property are used for a single family dwelling.

**Proposed Temporary Use:**

It is our intention to offer the home as a vacation rental for visitors who frequent Naramata, for purposes of tourism and work. Our time period would range from May 1st to October 31<sup>st</sup> each year, with the intention of renewing annually, as permitted by the RDOS.

My family has been in Naramata for many generations (my own children are 6<sup>th</sup> generation). I grew up here and intend on raising my boys here, so preserving the community heritage and character is absolutely paramount to us.

We reside full time only two blocks south of this property, and will be available to check in and manage the vacation rental and guests responsibly. We have spoken to our neighbours and shared our intention to short term rent the property. We have kept the communication open and hope to continue this relationship moving forward. The quality of life for our neighbours and existing residents nearby is of utmost importance to us. We ourselves are neighbours to a vacation rental (3189 3<sup>rd</sup> Street) and appreciate what that can look/feel/sound like!

Thank you for your consideration.

Sincerely,

Deanna (Smith) & Brent Ryll
