

July 28, 2026

To whom it may concern,

I am the owner/operator of one short term rental unit within our home. It is a secondary suite with it's own kitchen.

We take reservations from the end of April to ~~mince~~ August with minimal reservations in September. As we run an active farm and travel to farmers markets with our apples we do not take reservations during these months.

I, Joan Denroche, reside in the home from April 1 to November to run the farm, the air B n B and participate weekly in the Penticton Farmer market selling the lavender products I make from our 800 lavender plants.

Signed -
