Helpful hints for electronic public meetings

If a meeting has not yet started, you can wait in the virtual lobby

If using a cell phone, please stay in one place where you have good signal

If you are using computer audio, make sure you have a microphone if you need to talk. (If not, you can still watch the public hearing on your computer and use the call in option to listen/speak using your phone.

If you have audio or video problems, you can switch to the dial in option

You do not have to use the video function to participate in the meeting. You are welcome to use audio only.

Materials that would normally be available at a public meeting will be provided on the proposal's webpage.
