## TEMPORARY CHLORINATION UPDATE

### FAULDER WATER SYSTEM USERS

June 27, 2023

The Regional District of Okanagan-Similkameen's Utilities staff continue to work on rehabilitating the Faulder Uranium Treatment System after testing indicated the resin used to remove uranium was bacteriologically contaminated. As this complex process continues, the system will continue to be chlorinated, at minimum, for the next month.

For further information, please contact the Utilities Department at 250-490-4135, or toll free at 1-877-610-3737. **For after-hours water emergencies call Regional Dispatch at 250-490-4141.**

Thank you for your cooperation.

Sign up for Voyent Alert to receive RDOS emergency information and Electoral Area updates. See below.

The advertisement for Voyent Alert features a smartphone on the left displaying a "Flood Advisory" for the Town of Sampleton, issued on Jan 28, 2021, at 11:34AM MST. The advisory text states that due to rising high waters, community members have been placed under an evacuation order, and those who have not received an order are not required to evacuate. A map below the text shows the "Evacuation Zone" in red. To the right of the phone is the "VOYENT ALERT!" logo. Further right, the text "NOTIFICATION SERVICE" is displayed above a small RDOS logo. The main headline reads "GET THE INFORMATION YOU NEED, WHEN YOU NEED IT". Below this, a paragraph states that the Regional District of Okanagan-Similkameen has chosen the Voyent Alert! service for crisis and day-to-day notices, and that registration is free, easy, and anonymous. A "REGISTER NOW!" button is prominently displayed. At the bottom, there are sections for "MOBILE APP USERS" with links to the Google Play and Apple App Store, and a section for online registration at "register.voyent-alert.com".
