

PRESS RELEASE

RESCINDED – BOIL WATER NOTICE

SUN VALLEY WATER SYSTEM USERS

February 2, 2018

The Regional District of Okanagan-Similkameen (RDOS) has received approval from the Interior Health Authority to rescind the Boil Water Notice for the Sun Valley water system that has been in place since January 18th, 2018.

Over the past two years there has been three power outages that have resulted in a loss of water system pressure in the Sun Valley system. In all three instances, bacteriological samples taken after water service was restored indicated Total Coliforms present in the distribution system. Based on these findings, the RDOS would like to inform residents that a Boil Water Notice will now be automatically issued anytime that there is a power outage of a duration that will result in partial or complete loss of water system pressure in the Sun Valley system.

For more information contact the Regional District of Okanagan-Similkameen at 250.490.4106 or 250.490.4135. If you are a new resident to the Sun Valley system please feel free to send an email to info@rdos.bc.ca and remember to include your name and address to receive future email notifications.

Thank you for your cooperation.
