QUESTIONS RECEIVED:

Question #1: Does RDOS have a budget allocated for this study?

Answer #1: The budget for the completion of the aquifer study is \$90,000.

Question #2: Will RDOS supply the successful proponent with detailed water use and water level data for the Faulder well(s)?

Answer #2: RDOS can provide Faulder Well data, however, there are several private wells that feed off the Meadow Valley Aquifer that will need to be included in the assessment to gain a full understanding of the area. The RDOS will assist the Consultant in connecting with property owners that have available information.

The final report will be imperative to guide future decision making when looking at demands on the available water in the aquifers.
