

What is the Governance Study?

Get to know the RDOS

Have you ever wondered about the services you receive from the RDOS, how decisions are made by your local government or how you can provide input? The Electoral Area “D” Governance Study is your chance to do just that.

Guided by a Governance Study Committee of 10 Area “D” residents and volunteers, this study will:

- Detail the services RDOS provides to Area “D”
- Share information on how the regional governance system works
- Seek input and ideas on how services and governance can be improved

Discuss Your Views

Area “D” is a large and diverse part of the RDOS and is made up of several unique communities. Is the current approach to local government meeting the needs of your community? Are there better ways to respond to local needs and prepare for future challenges? Your hosts – the Governance Study Committee, the RDOS and project consultants – want to hear from you!

We invite you to ...

- Review the presentation boards
- Join a discussion table
- Complete a survey
- Discuss your views with a project host

Your input will help build recommendations for improvements within the current regional district governance framework.
