

# WATER CONSERVATION DURING INFRASTRUCTURE UPGRADES WILLOWBROOK WATER SYSTEM

Effective April 14, 2026

April 10, 2026

---

All Willowbrook Water System users are being advised of a temporary power service interruption at the main pumphouse due to upgrades being facilitated by the Regional District of Okanagan-Similkameen (RDOS) Public Works.

This work will take place on Tuesday, April 14, 2026, from 8:00 am to 4:00 pm.

Residents are asked to **minimize indoor and outdoor water use on Tuesday, April 14**, to ensure safe levels are maintained in the reservoir. This is a precautionary measure necessary to protect the water supply for both household consumption and fire protection in the area during the temporary power outage.

There is not expected to be any interruption of service or water quality concerns during this period.

For further information, please contact RDOS Public Works at 250-490-4135 during regular business hours, Monday through Friday.

**For after-hours water emergencies, please call RDOS Regional Dispatch at 250-490-4141.**

Thank you for your cooperation.
