

PROPOSAL SUMMARY

This letter acts as a summary for the proposal for short-term rental for my home. The address is 3-8401 120th Ave in Osoyoos, BC

This is a summer vacation home that we primarily use for personal use. We did receive a TUPS permit that I did not realize had expired so I am sending in a new application.

The area is a small community of private homes, and many homes are empty throughout the year.

I am not sure if you have access to my previous application, but nothing has changed since that time. I also am currently registered with the province and renewal will be in May of this year.

Because I had applied and received the permit previously, I am not sure if I need to conduct another safety inspection. I am including the original one here as well.

Please feel free to email or call with questions.
