RE: Regional District Zoning Amendment Bylaw No. 2895,
2020 Metal Storage Container Zoning Regulations

My comments / concerns are:

- I do support the proposed regulation of metal storage containers.
- I do support the proposed regulation of metal storage containers, subject to the comments listed below.
- X I do not support the proposed regulation of metal storage containers.

I do not support this proposed bylaw that a metal storage container may be used as an accessory building ; only if it is:

- i) completely clad in a material consistent with the principal building; and
- ii) covered by a roof with a pitch consistent with the principal building.

These two requirements are particularly onerous on the property owner, resulting in a considerable cost to the resident.

If RDOS is receiving "occasional" complaints as described in the staff report, the Region should develop some alternative solution to deal with THOSE complaints individually and not enact a blanket bylaw affecting the RDOS all RDOS Areas'.

Subject: RE: APC Memo - Review of Proposed Metal Storage Container Zoning Regulations (X2020.006-ZONE)

Donna,

Definition of a Metal Storage Container (max. length, width and height) - The quantity should be limited by overall length not units. 2 small ones could equal one large one, etc.

No Cladding or Roofs should be required to be added but a coat of paint to clean up and blend in. If you think they are that ugly then don't allow them in those zones. People trying to attach roofs to those things as the Home Handyman could be dangerous. Plus they would often end up looking worse. A nice wind gust could easily take them off if not done right. To make sure it is done right you will now have to inspect them – Building Permit, etc... pain in the butt.

The smaller parcels in AG zones (lots of them ½ acres, etc.) should be treated the same as RSI, RS2, etc.

Personally I don't think you should be allowed to have one on any property under an 0.4 ha, other than if you are moving

No stacking on any parcels smaller than 20ha. When they are stacked no one will hardly ever do anything with the one on top as they won't be crawling up a ladder all the time, etc. Easily become an eyesore. Stacking of containers must be the same setbacks as a principal residence then.

SH zones – 1

LH zones - 2

Same setback rules as Accessory Buildings.

During Construction – yes but a time limit. If you can't build a house in under a year you shouldn't be building. There is a lot of theft from job sites.

People should be allowed to park a Storage Container out front of their house when they are moving. 1 month is plenty of time. (size limit on container in the smaller zones <SH so they don't park a humungous one on their front long.

You should also look at how to incorporate the above ground “Swimming Pool” containers. They are very nice but sit quite high when not dug into the ground. Some aren't.

Grant Montgomery,

Metal Storage Container Zoning Regulations

My comments / concerns are:

- I do support the proposed regulation of metal storage containers.
- I do support the proposed regulation of metal storage containers, subject to the comments listed below.
- I do not support the proposed regulation of metal storage containers.

- I dont think a building permit is required prior to having a metal storage container
- I am okay with them in low density residential zones
- comply w setbacks
- small holdings large than 1 ha should be treated like large holdings
- I dont support requirement to clad container + put a matching roof over it for low density ~~res~~ residential & small holdings.

Subject: APC memo-Review of proposed Metal Storage Containers Zoning Regulations
Date: May 18, 2020 8:10:08 PM

Hi,

I donot think that there is any need for zoning Regulations for Metal storage Containers. In my views they are much safer and better than small sheds and temporary storage. RDOS can set a limit of containers that how many one property can have?

Subject: Re: APC Memo - Review of Proposed Metal Storage Container Zoning Regulations (X2020.006-ZONE)

my only comment is on duration

I believe the Town of Oliver allows a metal bin/container/waste removal structure for a certain time limit.

Would be nice to see a recommendation from staff in the form of

1. one month
2. three months
3. six months

Action mandated by bylaw with no exceptions after six months. - A warning given one month prior to expiry of limit.

I pause to note that one home in Oliver received a building permit almost 20 years ago but the obligations not fulfilled and the corp now in the position not being able to act because it never acted when it should have.

a follow to ed's remark
some areas of the regional district have large lots, orchards, ranches etc - I think any regulation should have a relationship to the size of the lot and the placement of the steel structure that is convenient to the owner but not an eye sore. There are many RDOS built up areas near Okanagan Falls, Naramata, Westbench where steel containers should have a time limit placed on the use similar to Town of Oliver and other municipalities.

Hello Chris and members of the Area C APC: I could not make the response form work as I could not print it (out of ink) and the form was not subject to edit which would have allowed me to make my responses on it, then submit. Did no one think of that?

Anyway, I know people are going to erect really ugly structures on their properties, be they shipping containers or chicken coops. My suggestion is that the placement of any shipping containers should ensure that the main building-- commercial building, industrial plant, residence, whatever--must be situate directly between the shipping container and the main road access to that property. Pretty simple, but it would help contain the ugly.

Jessica Murpphy
Area C APC

I support the proposed bylaw subject to the above.

Metal Storage Container Zoning Regulations

My comments / concerns are:

- ~~XXX~~ I do support the proposed regulation of metal storage containers.
- I do support the proposed regulation of metal storage containers, subject to the comments listed below.
- I do not support the proposed regulation of metal storage containers.

I support the proposed regulations because the result in residential zones (Low Density & Smallholdings) would be accessory buildings that arcitecturally match the principle residence with a steel box-inside (presumably for security). This, in fact, may be an improvement to the appearance of accessory structures in residential zones and I believe that the same design principles should be applied to ANY accessory building – steel containers or not.

Hi JoAnn,

I have just sent off my response regarding the Zoning Bylaw Amendment regarding metal containers and I wish to add another thought:

If the regulations outlined on Appendix #1 are not adopted as part of the Bylaw, I would totally oppose allowing metal containers in low density residential and smallholding zones – other than for construction and other related short-term purposes.

Thanks.

If containers are being utilized in a permanent arrangement, existing building bylaws should be sufficient.
Bylaws regarding unsightly properties may also be used to regulate excessive or obnoxious placement of containers.

- I do not support the proposed regulation of metal storage containers.

My concern is regarding the addition of more ventilation if flammable or explosive materials are stored.

As fire chief pre 2017 a resident of the community stored fire works as he sold them and stored in metal containers on his property. I had been doing this before I found out.

In 2011 a fire fighter from Enderby B.C. was killed when a structure on fire next to storage containers caused the container to explode blowing doors off. Perhaps if large quantities are stored the containers should be marked.

Subject: PROPOSED BYLAW 2895 FEEDBACK (METAL Storage Containers)
Date: July 3, 2020 10:40:25 AM

Please accept this as 'Feedback Form'

Re: Metal Storage Container Regulations Zoning Amendment Bylaw No. 2895, 2020

WE DO support the proposed textual amendments to the Okanagan Valley Electoral Area Zoning Bylaws to regulate the placement of metal storage containers, subject to the comments listed below:

1. Esthetics/Property Value/Care - when we purchased a 3 acre property in the former Regal Ridge development, we were attracted to the guidelines and former covenant along with the RDOS' good governance in general. It is our desire to live in an area uncluttered from unsightly premises and have an enjoyment of a good quality of life for all. Containers only benefit the owner and not the rest of the region. There should also be a focus on enjoyment of the area for future generations. We have counted as many as 7 structures on one property (including primary residence, sheds, RV's, containers, etc.).
2. Safety - As containers can attract theft, an increase in the number of containers risks an increase in theft and safety concerns for residents whose properties are invaded. Large heavy doors - is there a risk of someone getting locked inside?
3. Environmental - risk of disturbing land when delivered. We acknowledge and support that much of our and our neighbours' 3 acre lots were meant to be preserved in a natural state and to be used as wildlife corridors. We have additional concern with containers that may have non-regulated foundations, potential for run-off of chemicals, non-permitted use, sewage effluent etc.
4. Fire Department and Fire Risk - There is no regulation regarding storage of hazardous materials in air tight containers. For example, the incidents of Enderby 2011 and Saanich 2013 and WorkSafe BC come to mind. On the mountain, there has been a fire at a residence where oily rags were neglected. In addition, if containers are located on properties in an obscure location, it may make it difficult for the fire department to access, maneuver large vehicles around etc.
5. Location - it is noted that containers should not be located between the principal residence and the front of the property. What about the other property borders, sides and back? For example, a container placed near the property line of a neighbour, whereby it may not be visible by the owner however it affects the enjoyment of the adjacent property owner, if:
A/ there are no setbacks, and
B/ recognizing that the lots in the former Regal Ridge are irregular in shape and that the amount of vegetation varies even within a property. There is risk that a container owner could place the unit out of their sightline, but not that of another owner.
6. Grandfathering - recognizing that there is not much scope for a local government to deviate from to reduce the unsightliness, recommend that it be modified that existing units must follow requirements of newly located units i.e. location of unit, cladding/colour to match primary residence, roof pitch and to remove any reference to advertising/former

owners' name/business etc.

Thank you for considering the above as it relates to the proposed bylaw.

John Anders and
Candy Anders

From: [John Anders](#)

Subject: metal storage containers on small rural lots
Date: June 10, 2020 10:06:37 PM

Thank you for your initiative. My wife and I both support the limitation to one seaman on these types of lots and your proposed design requirements 9similar colouring to main residence and sloped roofs and restrictions on where they can be placed. We would also like to see restrictions on the amount and type of junk that can be placed on primarily residential lots.

Best Regards

John and Candy Anders

There are several metal storage containers on Sarquatch Trail. Some residences have one only, two properties have two each. This diminishes the aesthetics of the area, reduces property values.

Feedback Form Addendum

Proposed Bylaw No. 2895, 2020

Comments:

Background Memo, May 6, 2020:

<https://www.rdos.bc.ca/assets/Uploads/APCMemo20200506.pdf>

Regarding the given reasons for the proposed change:

Okanagan Mountain Estates (twenty kilometres east of Osoyoos on Hwy. #3) is not a typical "residential neighbourhood" and has no "highway commercial developments". Almost all of the area consists of 3+ acre properties (**Small Holdings**) and is mostly covered in mature forest which generally hides any shipping containers.

Shipping containers, with good padlocks, are much more theft resistant than a wood shed, and are a less likely target as they have no windows to reveal whether or not the contents are worth stealing.

In addition, shipping containers are much more fire resistant than a wood structure, important in a high risk zone for wild fires.

Regarding the building code, all shipping containers meet the same high standard and pose no risk to humans as compared to stick-built structures.

Included in the Memo is the item:

"Conversely, it has also been suggested that the Regional District should be treating storage containers on larger parcels in the Small Holdings zones (i.e. with parcels greater than 1.0 ha in area) the same as those parcels zoned Large Holdings. Specifically, that there be no regulations on numbers of containers or how they are clad (NOTE: Amendment Bylaw 2886 currently proposes to regulate container numbers and cladding in all SH zones)."

I would like to suggest that this clause be included in the final draft.

This bylaw is focusing incorrectly & unfairly on container ownership. If peoples properties are unsightly due to containers, old cars, junk being stored on properties then that issue should be addressed + amended accordingly. Blocking out container owners under the new bylaw is unfair to those that have pride in their property. They should not be punished due to another bylaw not being enforced. We live in a rural area w/ over 2 acres, This new bylaw is →

Feedback Form 2/2 - Storage Container Bylaw.
CRAIK, L

(cont.)

penishing those that have done nothing wrong. Amend the currently bylaw to include unsightly objects such as containers, old cars, old machinery, etc.,

And deal with it on a case to case basis as a complaint arises. Coming from the 2nd largest city in British Columbia there was no enforcement re containers, only issues with unsightly properties. Moving predominantly to a rural area in 2017, with over 100 acres we never thought we'd have to worry about a container. That was acceptable in a major city. Paid for shipping, it, placing it on an acceptable pad and it not interfering with anything or anybody.

Please reconsider this new bylaw. AMEND THE CURRENT PROPERTY BYLAWS. That will allow officers to investigate unsightly property on a case by case issue.

Regards Liza Craik

Thanking you in advance for this bylaw amendment !!

These containers are so ugly to look at and they devalue neighbouring properties. They are so ugly in their natural metal state.

One of the reasons we purchased up^{here} was because of having the space to adapt our property to our needs yet maintain the rural aspect - all of which was confirmed by our real estate agent. IF regulation change that is unfair and unreasonable - we are rural therefore our land isn't in the city centre we have 3⁺ acres and pay taxes - these changes are a travesty.

I Don't support the proposed bylaw.
Prior to purchasing my season I checked with the RDOS
and was informed it was allowed.
I am a small holding owner (3 1/2 acres) I use the
cars for storage of car parts & equipment on my property.
The loss of this existing storage would adversely affect
my use of the property.

Proposed Bylaw No. 2895, 2020

Comments:

Background Memo, May 6 2020

<https://www.rdos.bc.ca/assets/Uploads/APCMemo20200506.pdf>

Regarding the given reasons for the proposed change:

Okanagan Mountain Estates (twenty Kms east of Osoyoos on Hwy. #3) is not a typical “residential neighbourhood” and has no “highway commercial developments”. Almost all of the area consists of 3 + acre properties (**Small Holdings**) and is mostly covered in mature forest which generally hides any shipping containers.

Shipping containers with good padlocks are much more secure and theft resistant than a wood shed and are a less likely target as they have no windows to reveal the contents and are made of metal.

In addition, shipping containers are much more fire resistant than a wood structure, important in a high risk zone for wild fires.

Regarding the building code, all shipping containers meet or exceed the same high standard and pose no risk to humans as compared to wood built structures.

I do not support the proposed bylaw that a metal storage container may be used as an accessory building: only if it is:

- i) completely clad in a material consistent with the principal building; and
- ii) covered by a roof with a pitch consistent with the principal building.

These two requirements are particularly onerous on the property owner, resulting in a considerable cost to the resident.

If RDOS is receiving “**occasional**” complaints as described in the staff report, the Region should develop some alternative solution to deal with **Those complaints individually** and not enact a blanket bylaw affecting all RDOS Areas.

Included in the Memo is the item:

“Conversely it has been suggested that the Regional District should be treating storage containers on larger parcels in the Small Holdings zone (i.e. with parcels greater than 1.0 ha in area) the same as those parcels zoned Large Holdings. Specially that there be no regulations on

numbers of containers or how they are clad (NOTE: Amendment Bylaw 2886 currently proposes to regulate container numbers and cladding in all SH zones)."

I would like to suggest that this clause be included in the final draft.

The intent is to stop or amend the proposed bylaw before it reaches the First Reading with the RDOS.

Wayne Kelley

Osoyoos, BC
Canada, V0H 1V6

My comments / concerns are:

- I do support the proposed textual amendments to the Okanagan Valley Electoral Area Zoning Bylaws to regulate the placement of metal storage containers.
- I do support the proposed textual amendments to the Okanagan Valley Electoral Area Zoning Bylaws to regulate the placement of metal storage containers, subject to the comments listed below.
- I do not support the proposed textual amendments to the Okanagan Valley Electoral Area Zoning Bylaws to regulate the placement of metal storage containers.

Written submissions received from this information meeting will be considered by the Regional District Board prior to 1st reading of Amendment Bylaw No. 2895, 2020.

Please See Attached

Whereas some regulation for storage containers is necessary, I believe the current document and

approach is too restrictive. Comments are attached.

Feedback Forms must be completed and returned to the Regional District
no later than **July 3, 2020**

Protecting your personal information is an obligation the Regional District of Okanagan-Similkameen takes seriously. Our practices have been designed to ensure compliance with the privacy provisions of the *Freedom of Information and Protection of Privacy Act* (British Columbia) ("FIPPA"). Any personal or proprietary information you provide to us is collected, used and disclosed in accordance with FIPPA. Should you have any questions about the collection, use

We currently reside in a small holding and would be subject to proposed amendment 7.27.1b).

Paragraph 7.27.1 b) (1) i) requires the metal storage container to be completely clad in a material consistent with the principal building. This is over kill and impossible for most shipping containers. The door hinges have pivot points that will prevent the door from opening if clad. Similarly, cladding the door itself will prevent access to the opening levers thereby preventing access to the container. If a roof is placed on the container and the exterior walls and doors are painted in a manner consistent with the principal building, the shipping container should look as good as, if not better than, most other compliant accessory buildings. As such, the text and requirements are NOT supported, but could be supported with the following:

Recommend that the text be changed from "*completely clad in a material consistent with the principal building*" to "*completely painted in a colour consistent with the principal building*"

Reading 7.27.1a) as it relates to multiple containers, indicates a permit is required. Sub paragraph b) doesn't indicate the same. If no permit is required, then I support 7.27.1b) with the changes mentioned above. I tried to seek clarity on the point of permits, but my call was not returned. If a permit is required, then the text is NOT supported for reasons listed below.

We completed our initial residential building under permit. After which and upon reviewing the applicable bylaw, we placed a metal container on the property in good faith. We submitted further permits for other projects where the inspector was onsite while the metal container remained in full sight. Arguably we have approval (albeit maybe tacit) for the container and should be under a grandfather clause for any metal container permit requirement. We should not be punished with a permit fee and/or potentially a very expensive environmental assessment because of ambiguity in the bylaw.

Finally and in general, given our current national and local economic environment and outlook, I believe it is inappropriate to initiate and implement NEW measures through a recent "interpretation" that will burden residents with potentially NEW taxes, fees, and potentially fines (where residents are simply unable to comply through no fault of their own). A grandfather clause or no cost grace period to register and retain the metal shipping container(s) should be implemented.

Thank you for considering my feedback.

Sincerely,

Arnold Kettenacker

Our neighborhood (Anarchist Mountain) properties are a minimum 3 acres in size. The building sites for the most part are set back from streets & sheltered by earth berms.

SeaCans are used predominantly as storage structures - a site requirement. They are structurally sound and need only be founded on a gravel pad. They are constructed of metal which conforms perfectly to the Provincial Fire Smart Program. They are very secure from both two & four legged intruders. (SeaCans do not constitute a safety/security concern.) There is NO logical rationale to cladding them with other materials or adding an unnecessary roof. A "lipstick" application would add unnecessary capital & O&M cost while diminishing value. As an unoccupied storage unit, they exceed the BC Building Code.

Should they be repurposed as a dwelling unit, they would need to comply with the Building Code.

Subject: Storage containers
Date: May 25, 2020 11:54:19 AM

I live on the West Bench, Area F.

I'm not sure if I am to express my feelings in this email. In any event, I am strongly opposed to any metal storage containers, unless being used temporarily during construction or renovations.

I find them to be aesthetically unpleasant.

Yvonne McAdam

When we bought our property the rules were you had to build a min. 1800 sq Ft house, Mobile homes are not allowed and you can only live in your RV while building. But now there are several Mobile homes here, people are living in there RV's year round. Some are building a little box and calling it a house which is in where near 1800 sq Ft. This should also be stopped as well, it looks trashy!

C-CANS MUST BE 20' MAX. BUT... THERE ARE PLENTY OF PLACES THAT HAVE BUILDING PERMITS FOR YEARS. IS A C-CAN ACCEPTABLE FOR YEARS?

NEXT - WHY DOES THE RDOAS ALLOW BUILDING PERMITS FOR MOBILE HOMES, SMALL SQUARE BOX HOMES & "CANS", ON ANARCHIST MT? THESE "HOMES" ARE RUDELL LOOKING NEXT TO EXPENSIVE HOMES! WHAT IS BEING DONE ABOUT PEOPLE LIVING IN RVS WITH NO INTENTION OF BUILDING OR COMPLETING A HOME? SOME DON'T HAVE SEPTIC!

June 29, 2020

Regional District of Okanagan Similkameen

101 Martin Street,

Penticton BC V2A 5J9

Reference: BYLAW NO. 2895,2020

We propose the following amendments to the proposed by law as it relates to Electoral Area A – Zoning Bylaw No. 2451, 2008:

7.27 (1) (b)

Low Density Residential and Small Holding Zones

1. Any shipping container cannot exceed 20 feet in length;
2. The exterior cladding must be consistent with the material used on the principal building and must match the **colour** of the principal building.
3. A building permit is required before placement however; this would not trigger the need for an environmental report.
4. There should be a mechanism that requires existing containers in the low density and small holding zones to come into compliance with the new bylaw in a reasonable time frame.

We agree that the number of storage containers be limited to one (1) and that any storage container be covered with a roof, with the roof pitch being consistent with the principal building.

Signed _____

Ronald N. Palmer

Managing Partner

I feel if I have a sea can on my property and then have to clad it (build walls around it and then put on a pitched roof I may as well put up a building because in essence that is what I am doing. Defeats the purpose of convenience of using the sea can. Also when you want to move it or are done with it you now have to dismantle the structure and get rid of the building material. More stuff to the landfill

Metal Storage Container Zoning Review

Comments on draft Bylaw No. 2895 (Area A)
Submitted by Teresa B. Salamone (June 24, 2020).

Comment #1. Is a container as regulated in Bylaw 2895 to be defined solely as an "accessory building or structure"?

The draft container bylaw states: 7.27.1 The use of Metal Storage Containers as accessory buildings or structures is prohibited except in accordance with the following criteria". (Emphasis added.)

The language describes the requirements for a Metal Storage Container only when it is used "as accessory building or structures." Does that mean that there's another authorized use besides "accessory building or structure?" The definition states:

4.0 Definitions

"accessory building or structure" means a detached building or structure located on the same parcel as the principal building, the use of which is subordinate, customarily incidental, and exclusively devoted to that of the principal building; Electoral Area "A" Zoning Bylaw No. 2451, 2008

If 7.27 is intended to make containers an "accessory building or structure", why isn't that explicit? And if 7.27 doesn't mean to do that, under what other definition would the container fall? It seems pretty important that the container have a very specific definition under Bylaw 2451 since there are so many other provisions that are triggered by the definition of "accessory building or structure."

If this is what you meant, then the draft bylaw 7.27 could say

"Metal Storage Containers are defined as accessory buildings or structures. The use of Metal Storage Containers as accessory buildings or structures is prohibited except in accordance with the following criteria".

If you don't mean to say that a container is only an "accessory building or structure", then you need to be very clear and define all the various structural definitions that could apply to a container.

Comment #2. If a container is an “accessory building or structure,” does that mean that a container is subject to all the other requirements under Bylaw 2451?

See for example,

7.13 Accessory Buildings and Structures cxviii

.5 No accessory building or structure shall be situated on a parcel unless:

- a) a principal building has already been erected on the same lot;
- b) a principal building will be erected simultaneously with the accessory building or structure on the same lot; or
- c) the accessory building or structure does not exceed 10.0 m² in area, one story in building height, and is limited to one (1) per parcel. (Emphasis added.)

However, Bylaw 2895 section 7.27 .1a) seems to allow two (2) containers in a LH area (for example):

- a) in the Resource Area, Agriculture, Large Holdings and Industrial zones metal storage containers may only be stacked vertically to a maximum of two (2) containers and subject to the prior issuance of a building permit. (Emphasis added.)

If this is an unintended inconsistency, then one or the other provision should be revised to be consistent. If there is another reading of these two provisions that makes them simultaneously enforceable, the relationship between the two seemingly inconsistent requirements should be made clear.

Comment #3. Are there any other inconsistencies between the existing bylaw and the draft bylaw that would create confusion among the regulated community if not identified and addressed?

There are probably other inconsistencies between the existing bylaw and the draft bylaw, but it seems more like the job of the regulator to identify those when drafting a new bylaw than the job of the public to do so. My general comment is that the new bylaw and the existing bylaw should be able to read simultaneously and be consistently applied.

Other Comments:

Comment #4 – the language of the draft bylaw is not consistent when referring to the units that are to be regulated. Are you regulating Metal Shipping Containers or Metal Storage Containers? Or both? For example:

The "Electoral Area "A" Zoning Bylaw No. 2451, 2008" is amended by:

i) adding a new sub-section 7.27 (Metal Shipping Containers) under Section 7.0 (General Regulations) to read as follows:

7.27 Metal Storage Containers

.1 The use of Metal Storage Containers as accessory buildings or structures is prohibited except in accordance with the following criteria: (Emphasis added.)

Also suggest that if you suspect there is going to be ambiguity about what units you are trying to regulate, create a definition for whichever term you are going to use.

Comment #5. The draft Bylaw doesn't address requirements if you don't stack containers two (2) high. If they are not stacked does that mean you can have more than two (2) in LH for example? The curse of language is ambiguity. If you don't ever want containers stacked more than 2 high you can say that. For example:

"There can be no more than two (2) containers on a [to whatever zoning parcel you want this to apply] If there are two (2) containers, they must be stacked..."

Comment #6. The draft Bylaw doesn't address requirements for existing containers. People should not have to guess how the rule applies to them. What if I am SH and already have five (5) unclad containers? What if I am LH and have five (5) unstacked containers? If I am an existing LH with five (5) unstacked containers, could I then add a sixth (6th) container if I stack it? Is there a general grandfathering rule somewhere in the Area A bylaws? If there is a grandfather rule, that should be referenced: "These provisions come into force on [whatever is that date] and apply except as set out in [the grandfather rule.]"

Let's create Okanagan's first
acres development by doing
everything we can to enhance
the value of everyone's property.

We are a community - not
separate "fiefdoms."

"No grandfathering of existing containers"

Feedback Forms must be completed and returned to the Regional District
no later than July 3, 2020

Comment #7. The draft Bylaw calls for container on SH to be: "completely clad in a material consistent with the principal building ." What if the principal building is a log cabin? Can you really expect a home owner to pay to have a log cabin built around his storage container? These rules were clearly drafted without consideration for the real world implications but I suppose if the goals are to prevent the use of storage containers, and to ensure consistency among the Regional Areas no matter what, this is one way to do it.

Written submissions received from this information meeting will be considered by the Regional District Board prior to 1st reading of Amendment Bylaw No. 2895, 2020.

- Support bylaw subject to following modifications:

** 1 (b) - (i) and (ii) - this is not necessary and is not feasible in some cases - it would be challenging to build a roof to match the home & homemade efforts could look more unsightly than simply painting the container*

- 1 (c) - this is an excellent guideline but extra storage is often required for property maintenance equipment

Feedback Form Addendum

Proposed Bylaw No. 2895, 2020

Comments:

Background Memo, May 6, 2020:

<https://www.rdos.bc.ca/assets/Uploads/APCMemo20200506.pdf>

Regarding the given reasons for the proposed change:

Okanagan Mountain Estates (twenty kilometres east of Osoyoos on Hwy. #3) is not a typical "residential neighbourhood" and has no "highway commercial developments". Almost all of the area consists of 3+ acre properties (**Small Holdings**) and is mostly covered in mature forest which generally hides any shipping containers.

Shipping containers, with good padlocks, are much more theft resistant than a wood shed, and are a less likely target as they have no windows to reveal whether or not the contents are worth stealing.

In addition, shipping containers are much more fire resistant than a wood structure, important in a high risk zone for wild fires.

Regarding the building code, all shipping containers meet the same high standard and pose no risk to humans as compared to stick-built structures.

Included in the Memo is the item:

"Conversely, it has also been suggested that the Regional District should be treating storage containers on larger parcels in the Small Holdings zones (i.e. with parcels greater than 1.0 ha in area) the same as those parcels zoned Large Holdings. Specifically, that there be no regulations on numbers of containers or how they are clad (NOTE: Amendment Bylaw 2886 currently proposes to regulate container numbers and cladding in all SH zones)."

I would like to suggest that this clause be included in the final draft.

~~We are against having storage containers in our neighbourhood. Lot sizes here are too small and so the containers will be an eyesore to neighbours and will reduce property values based on their unkept appearance. We also do not believe those that get containers will abide by the bylaw to clad them and change the roof design to match the home as the District does not enforce most bylaws that are existing. If someone wants a garden shed there are many in different sizes at local building supply businesses that are more appropriate for a yard than a steel and rusting storage container.~~

~~We have no confidence that this bylaw will be enforced or that residents will abide by the provisions within the bylaw so our answer to this is no shipping containers.~~

So despite the widespread rejection of shipping containers by residents you intend to go ahead with this. Show us the results of the polling of the residents in Area F. Answer my questions as to how the cladding and roofing of containers will be enforced and the penalty imposed if not? Answer my question as to the stacking of containers in residential areas? Will containers that are already in peoples yards be required to be clad and roofed as per the ruling? And finally why containers which are an enormous eye sore? Who is behind pushing this through?

Totally disagree with this as do most if not all of my neighbours.

Bruce Turnbull

Subject: Sea cans
Date: May 15, 2020 5:40:56 PM

As long as the sea can is set in off the road way an kept tidy I find no issue with this storage resource. The can itself will last many times longer than a wooden structure as well as more secure than a falling down shed that harbors rodents and a invitation to the two legged vermin that seems to be invading our local area as of late. Much expense by residents Have been incurred in purchase, and placing them on the property. I say restrict the number on each property, an leave the issue alone. Spend our money on more important issues that will benefit our local area. Lots can be done for all the seniors, as well as the new families with children moving in the district.

Re: Bylaw Referral – File No. X2020.006-ZONE

Dear Christopher Garrish,

Thank you for providing the B.C. Ministry of Agriculture the opportunity to comment on the proposed Bylaw No. 2895, regarding new regulations for the placement of metal storage “shipping” containers on properties in RDOS’s Electoral Areas A, C, D, E, F and I. I have reviewed the documentation you have provided.

From an agricultural perspective I can offer the following comments:

- Ministry staff appreciate that the proposed bylaws do not prohibit these metal storage “shipping” containers in the identified Electoral Area agricultural zones. Metal shipping containers serve a variety of purposes for farmers including operating as greenhouses and storage of agricultural products.
- Ministry staff however suggest that the maximum limit of two (2) containers per parcel may place an unnecessary constraint for agricultural operators pursuing their business in the RDOS. If farmers are already using them as storage or greenhouses and wish to expand, there is a concern that these bylaw amendments may require them to search for less optimal alternatives. Ministry staff point to the RDOS’s June 1, 2017 Administration Report that states, “Administration also notes that the existing interpretation of metal storage containers as constituting an “accessory building or structure” has not resulted in serious complaint or objection from the community.”
- RDOS therefor may wish to consider revising these proposed bylaw provisions to make an exception to this limit for parcels in the Agricultural Land Reserve and lands zoned for Agriculture in an effort to support their rural agricultural sector.

RE: 40 (forty) day extension

Thank you for the above application that was sent on April 15, 2020.

This letter is to inform you that due to current levels of internal capacity, we are unable to review your referral in your proposed timeline. With additional time, the Penticton Indian Band will be able to ensure that an informed review process will occur. We are setting the new timeline to be 40 days from the existing timeline.

Most recently, the Supreme Court of Canada in the Tsilquot'in case confirmed that the province has been applying an incorrect and restrictive test to the determination of Aboriginal Title, and that Aboriginal Title includes the exclusive right of a First Nation to decide how that land is used and the right to benefit economically from those uses.

Please note that not receiving a response regarding a referral from Penticton Indian Band in the pre-application, current or post-application stage does not imply our support for the project.

I appreciate your co-operation.

File Number: X2020.006-ZONE

We are in receipt of the above referral. This proposed activity is within the PIB Area of Interest within the Okanagan Nation's Territory, and the lands and resources are subject to our unextinguished Aboriginal Title and Rights.

The Supreme Court of Canada in the Tsilhqot'in case has confirmed that the province and Canada have been applying an incorrect and impoverished view of Aboriginal Title, and that Aboriginal Title includes the exclusive right of Indigenous People to manage the land and resources as well as the right to benefit economically from the land and resources. The Court therefore concluded that when the Crown allocates resources on Aboriginal title lands without the Indigenous peoples' consent, it commits a serious infringement of constitutionally protected rights that will be difficult to justify.

PIB has specific referral processing requirements for both government and proponents which are integral to the exercise of our management right and to ensuring that the Crown can meet its duty to consult and accommodate our rights, including our Aboriginal title and management rights. According to this process, proponents are required to pay a \$500 processing fee for each referral. This fee must be paid within 30 days. Proper consultation and consideration of potential impacts cannot occur without the appropriate resources therefore it is only with payment that proper consultation can begin and the proposed activity/development can be reviewed.

Upon receipt of the processing fee, we will commence our review. You may then expect to receive a letter from us notifying you of the results of our review of potential impacts of the project within 30 to 90 days.

If the proposed activity requires a more in-depth review, PIB will notify the proponent and all parties will negotiate a memorandum of agreement regarding a process for review of the proposed activity.

Please note that our participation in the referral and consultation process does not define or amend PIB's Aboriginal Rights and Title, or limit any priorities afforded to Aboriginal Rights and Title, nor does it limit the positions that we may take in future negotiations or court actions.

If you require further information or clarification, please do not hesitate to contact me.

Attention: Planning RDOS

Re:Bylaw No. 2895-Metal Storage Container Regulations: 30 Day No Payment Activity

We write regarding your failure to pay invoice #L-200415-2895 to conduct a review to obtain additional information in the area of the above referral. To date, no payment has been received and we have therefore been unable to conduct a review of this referral; we must therefore put you on notice that we do not consent, agree or otherwise approve of the activity / development referred to by you in your letter to us dated April 15, 2020.

The Okanagan Nation holds unextinguished aboriginal title to the land and resources within our traditional territory. The above-noted activity / development is within PIB's Area of Responsibility within Okanagan territory and as such, is subject to Okanagan title, jurisdiction, rights and interests, and PIB decision making and responsibility.

Over the last two decades, the Supreme Court of Canada has clarified the law respecting the rights of aboriginal people in British Columbia, which includes the Pentiction Indian Band, Okanagan Nation. The Court has clarified that Aboriginal title continues to exist in British Columbia, and is protected by s. 35 of the Constitution Act, 1982.

Most recently, in June 2014, the Supreme Court of Canada in the Tsilhqot'in case set out the following characteristics and implications of Aboriginal title:

- Aboriginal title is not limited to intensively used sites; it extends to lands physically occupied and lands over which Indigenous peoples exercised control. Regular use of territories for hunting, fishing, trapping and foraging, with an intention and capacity to control the lands, grounds Aboriginal title.
- The Crown has no beneficial interest (the right to use, enjoy and profit from the economic development of lands) in

Aboriginal title lands and resources; the beneficial interest is held by the Aboriginal title holding group. Allocations of Aboriginal title lands or resources to third parties are serious infringements of Aboriginal title.

- Aboriginal title includes the right to proactively use and manage the resources.
- Once Aboriginal title is "established", the constitution prohibits incursions without the consent of the Aboriginal title holders unless the Crown can justify the infringement, which in turn requires a compelling and substantial public purpose as well as consistency with the Crown's fiduciary duty to the Aboriginal title holders, requiring the involvement of the Aboriginal title holding group in decisions.
- Before Aboriginal title is "established", the only way to ensure certainty is to obtain consent; in the absence of consent, the Crown must consult and accommodate. If consultation or accommodation is inadequate, the Crown decision can be suspended or quashed. Moreover, fulfilling the duty to consult and accommodate does not provide the certainty that consent provides; once Aboriginal title is established, the Crown may be required to cancel projects where there was no consent and the justification test noted above cannot be met.

At this time there has been no reconciliation of our interests with those of the Province of British Columbia and Canada and no process in place to adequately recognize and negotiate co-existence or accommodation of our jurisdiction and title. The Province continues to act as though we have no beneficial interest or authority, and it takes for itself the revenues derived from our lands and resources. The payment of the referral fee is necessary in order for us to assess your proposal, assess potential impacts and determine whether it should be approved and if so, on what conditions. Because we are unable to undertake such an assessment, we must at this time advise you that we are opposed to your proposed development/activity.
